SKILLS
Language: Spanish (Proficient)
Dear Ms. Bell,

I was informed about the internship position as a Digital Marketing Strategist from Jim Dandy, a current employee in your organization and a close family friend. He suggested I apply, as he knows my interest in the Healthcare Industry. I will be graduating from UW-Madison in May and am seeking a fall internship in the area.

As a student majoring in Journalism, Communication Arts and Digital Studies, I am extremely interested in the impact and effects of marketing and persuasive communications. The fact that how we communicate can help a product succeed in the marketplace, the forms of communication that is used, and why consumers make the decisions they do, has always interested me. While working in the Office of Admissions at UW-Madison, I witnessed first-hand the immediate impacts of our Facebook account and website and how it drove attendance to upcoming events.

Simple Technologies creates amazing health care devices that save lives. Working for a company that has such an important role in people’s health would be quite rewarding. I have the experience managing websites and using WordPress, generating analytics, and working with social media. Additionally, my interest and experience in video recording may be useful in generating content in social media and help Simple Technologies sell your product.

On a personal note, your product saved the life of my grandfather who was suffering from medical issues. Therefore, working for a company that has played such an important role in my family's life would be especially meaningful.

You can contact me at bamadison@wisc.edu, or at (608) 888-8888. I am really excited to speak to you about my skills and abilities and the Digital Marketing Strategist position. Thank you.

Sincerely,

Benjamin Madison
Healthcare Marketing/Digital Marketing Strategist Intern

**Employer:** Simple Technologies  
**Type:** Part Time, Internship  
**Location:** Middleton, WI  
**More information:** [www.simpletechnologies.com](http://www.simpletechnologies.com)
